To whom it may concern,

Hereby we, Sanquin Reagents, declare that the manufactured blood typing reagents contain no substances or preparation that require a Safety Data Sheet (SDS) according to directive 1999/45/EC.

Concerning the manufactured immune reagents the following products contain substances or preparations<sup>1-2-3</sup> that require a SDS (these SDSs are separately available on request):

- <sup>1</sup> Pelikine ELISA kits, 96 tests: M1904, M1906, M1920, M1921
- <sup>2</sup> Pelikine Toolset: M1980
- <sup>2</sup> Toolset 2 for VWFpp antibody pair: M1981
- <sup>3</sup> PeliClass ELISA for human IgG subclass quantification: M1551
- <sup>3</sup> PeliScreen HLA class I ELISA kit: M1924

All other manufactured immune reagents do not contain any substance or preparation that require a SDS according to directive 1999/45/EC

<sup>1</sup> M1822 Stop solution 13.5 mL. Contains Sulfuric acid 1.7% (w/v).

<sup>2</sup> M198005 Stop solution 40 mL. Contains Sulfuric acid 1.7% (w/v).

<sup>3</sup> M1807 Stop buffer 20 mL. Contains Oxalic acid dihydrate 2.0% (w/v).

Yours sincerely,

K. Keuning  
QA officer
